× × ×

Proposed Solution

Smart Club OS

A platform that centralizes every club activity into a
single dashboard

Key Features

Smart Club OS

1

Member Management

- Role-based access
- Member profiles
- Team organization

2

Event Management

- Create events
- Event registration
- Event calendar

3

Recruitment System

- Online applications
- Position listings
- Application tracking

4

Communication Hub

- Notice board
- Announcements
- Important updates

5

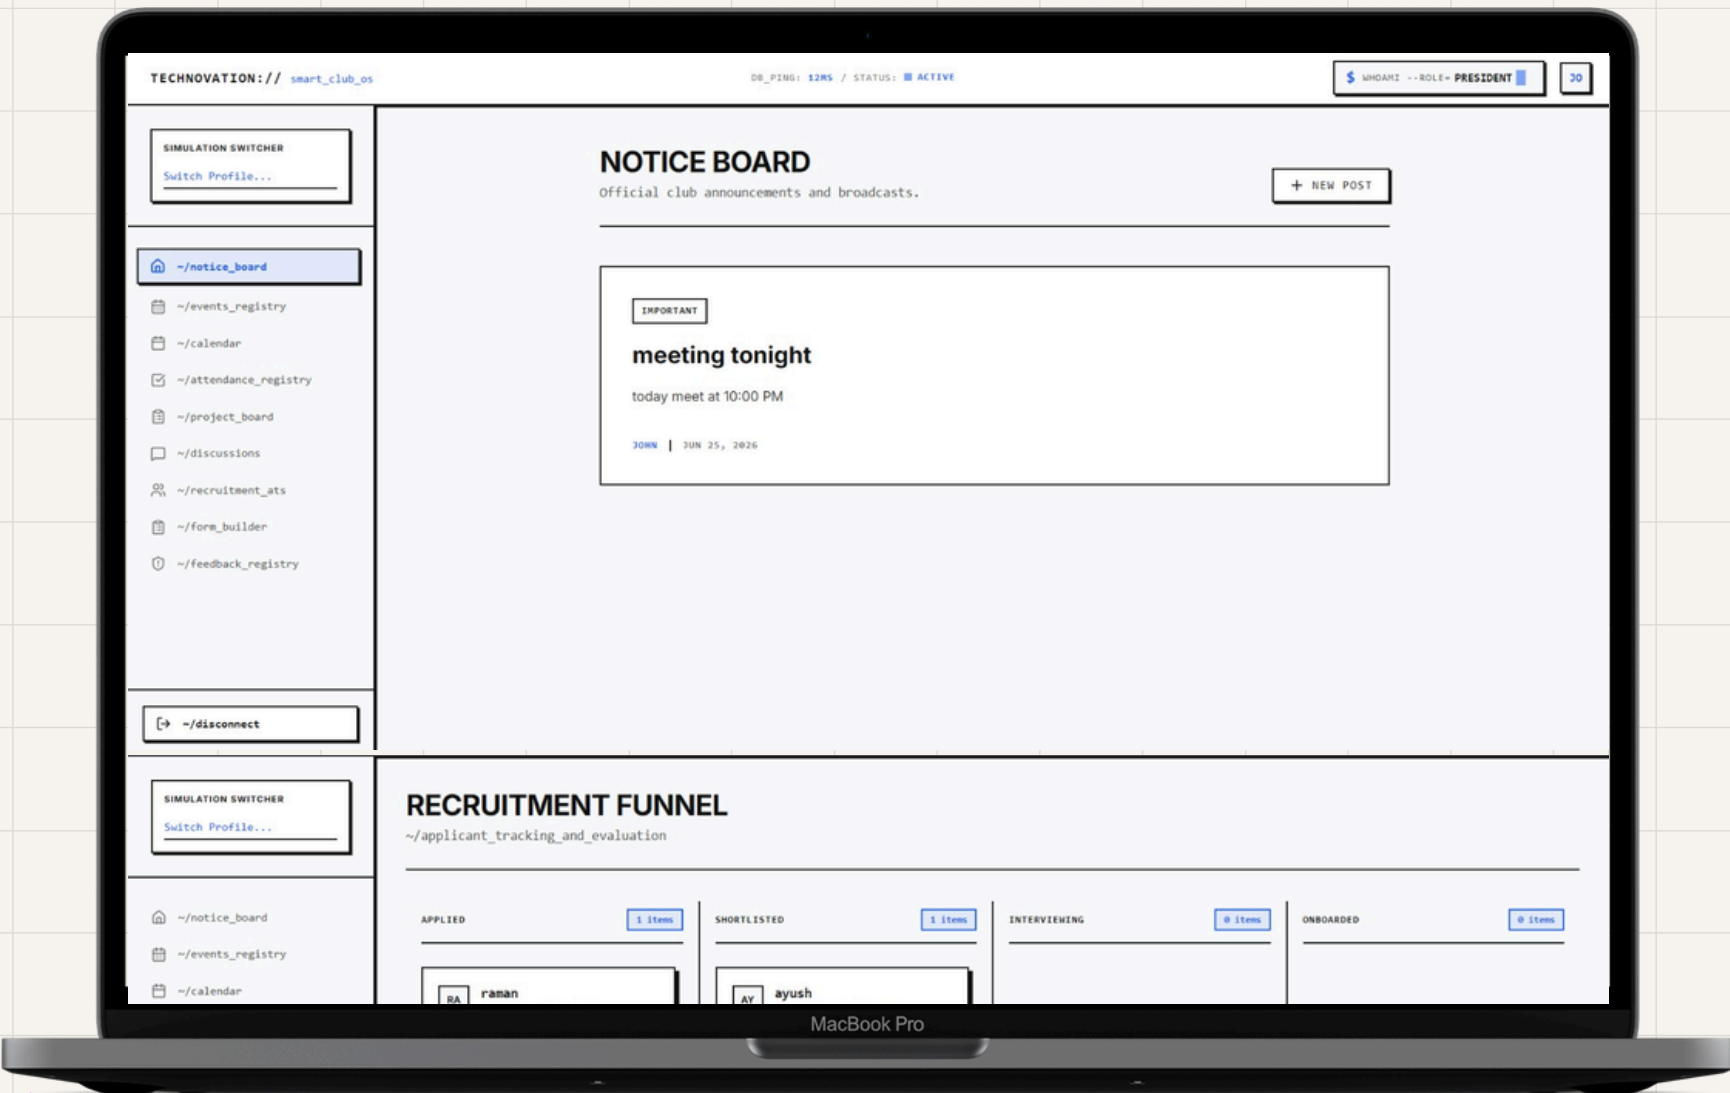

Task Management

- Task assignment
- Progress tracking
- Deadline management

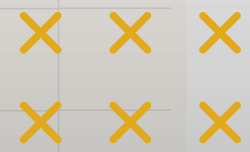

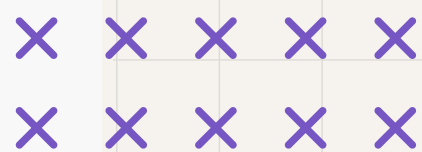

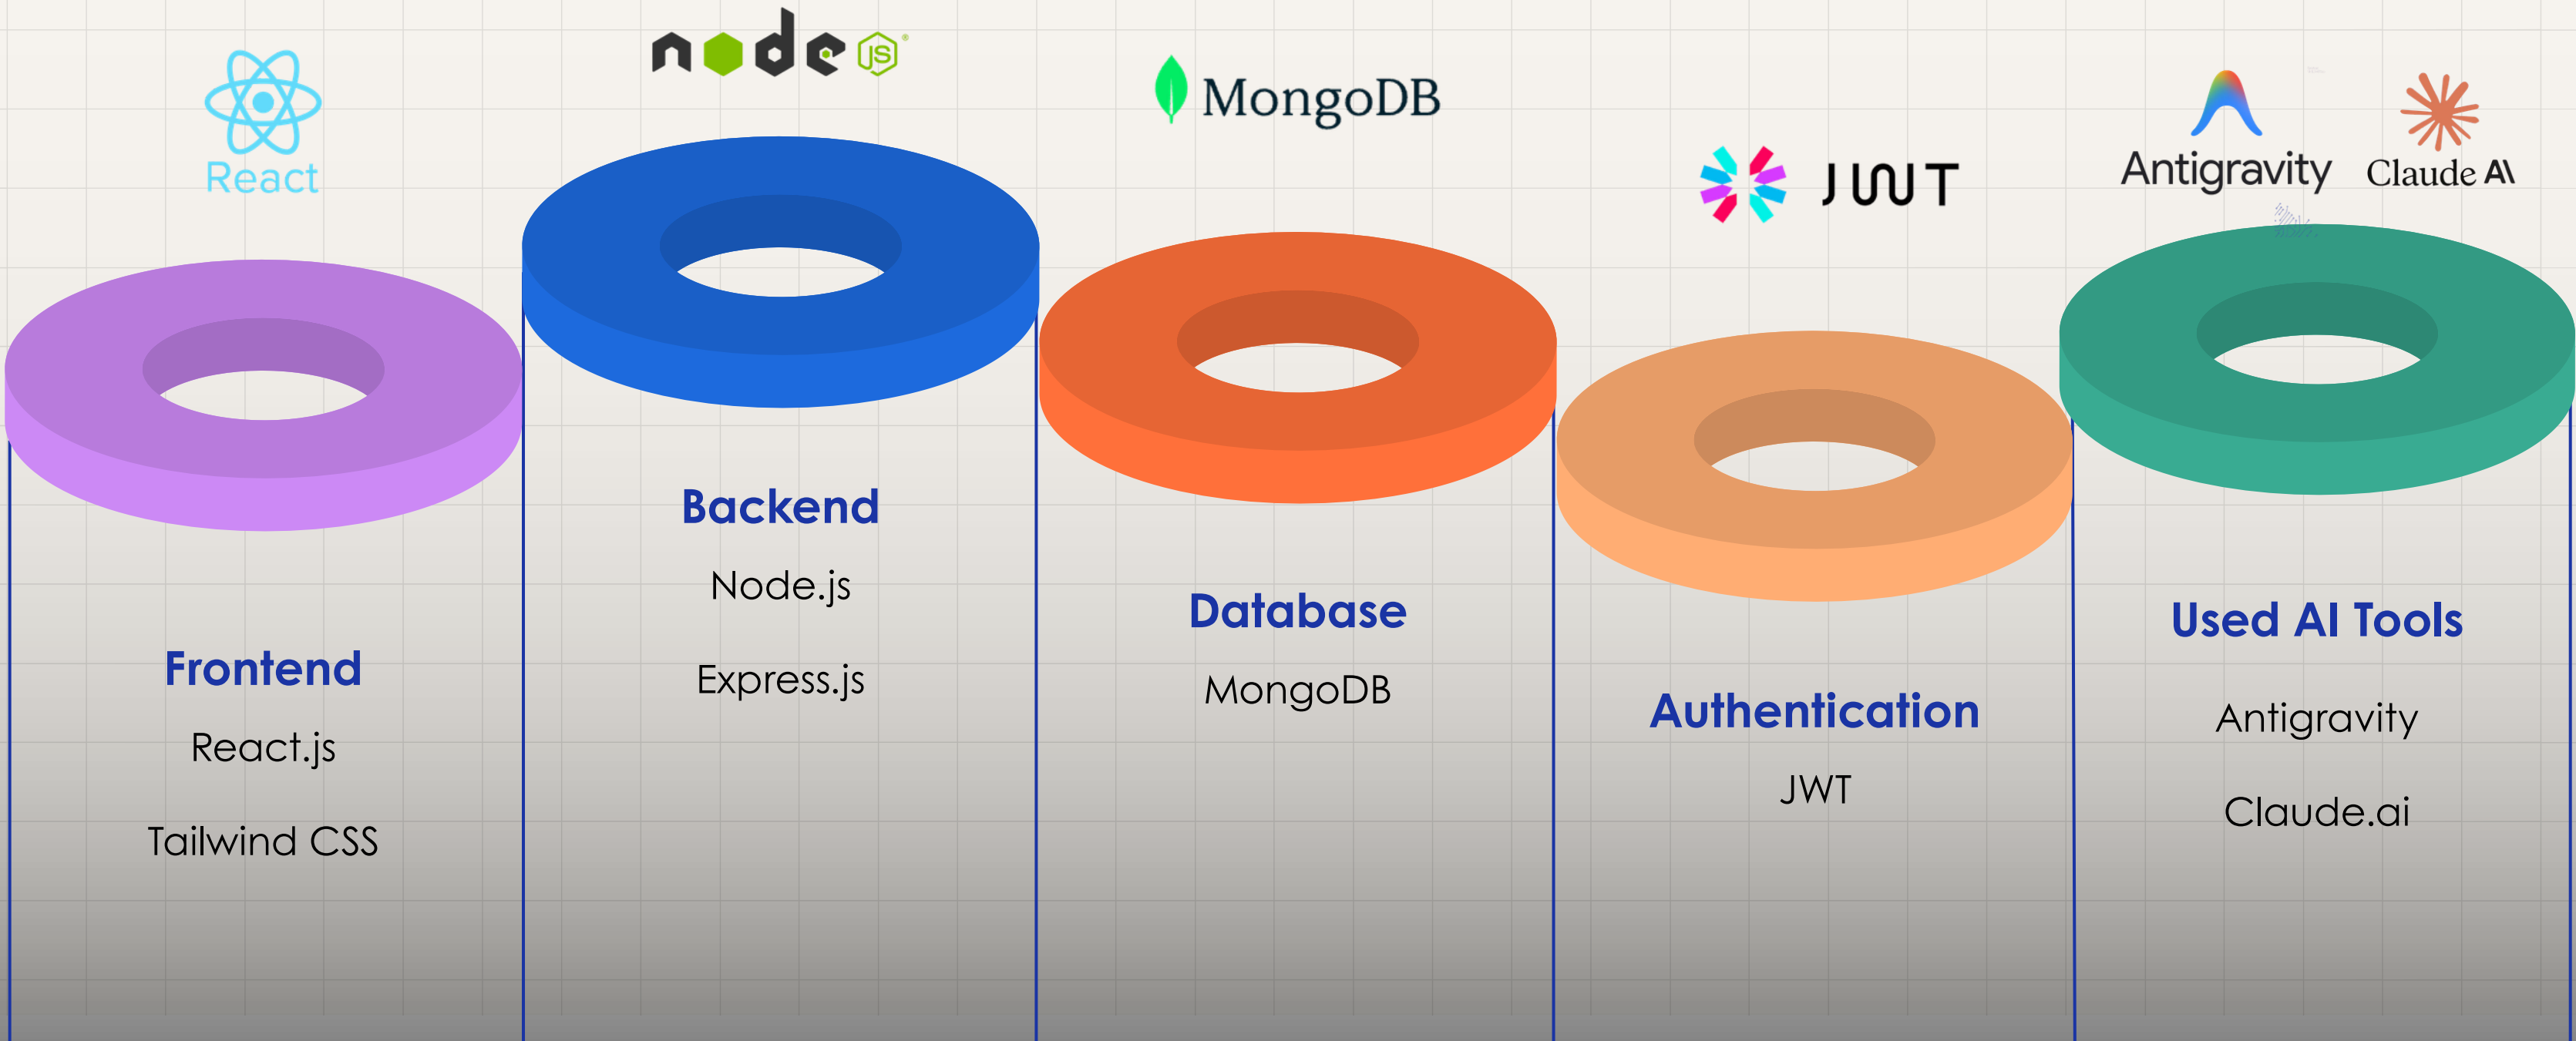

Product Mockups

An interactive web-based MVP built to
simplify and centralize student club
operations

Tech Stack

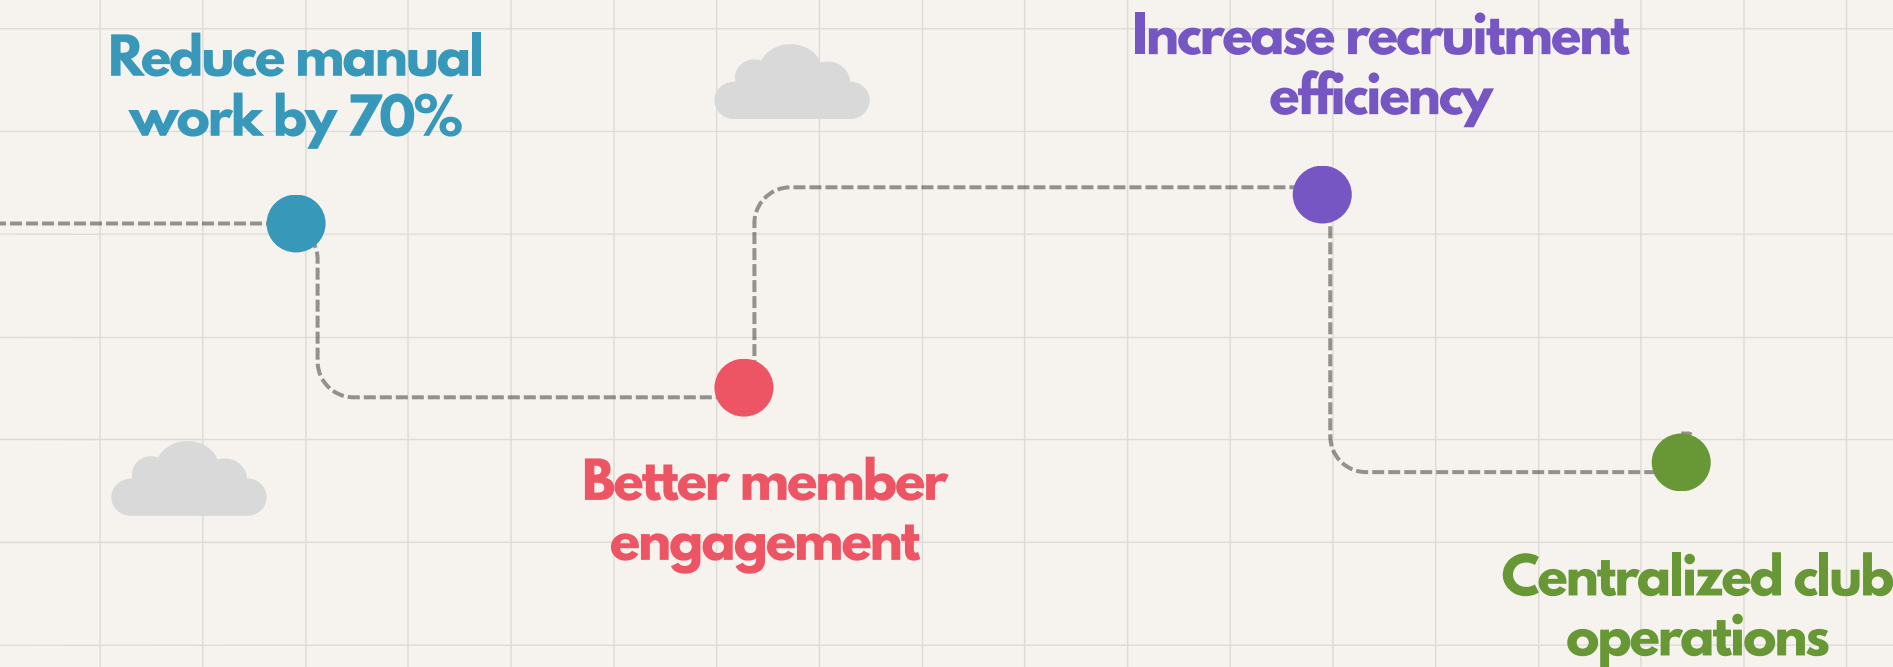

Technologies used to build a secure, responsive, and scalable platform

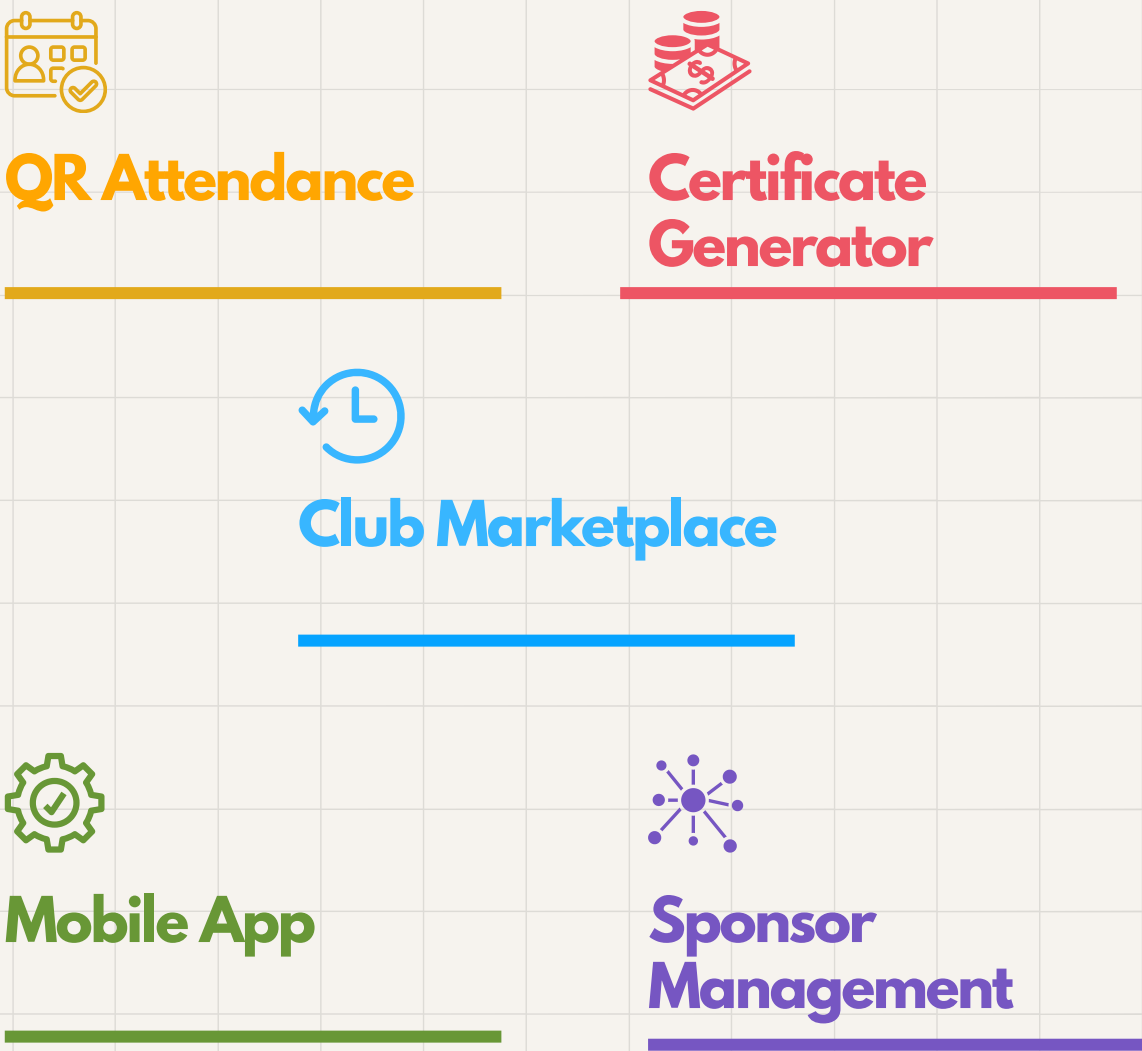

Impact & Future Scope

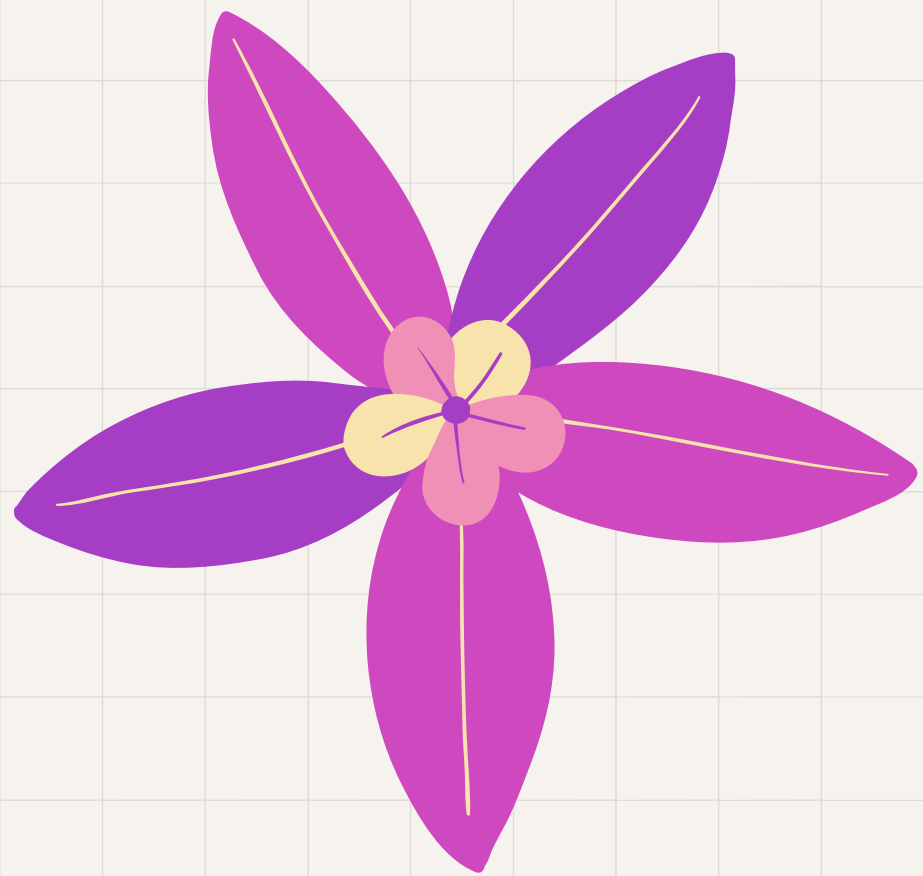

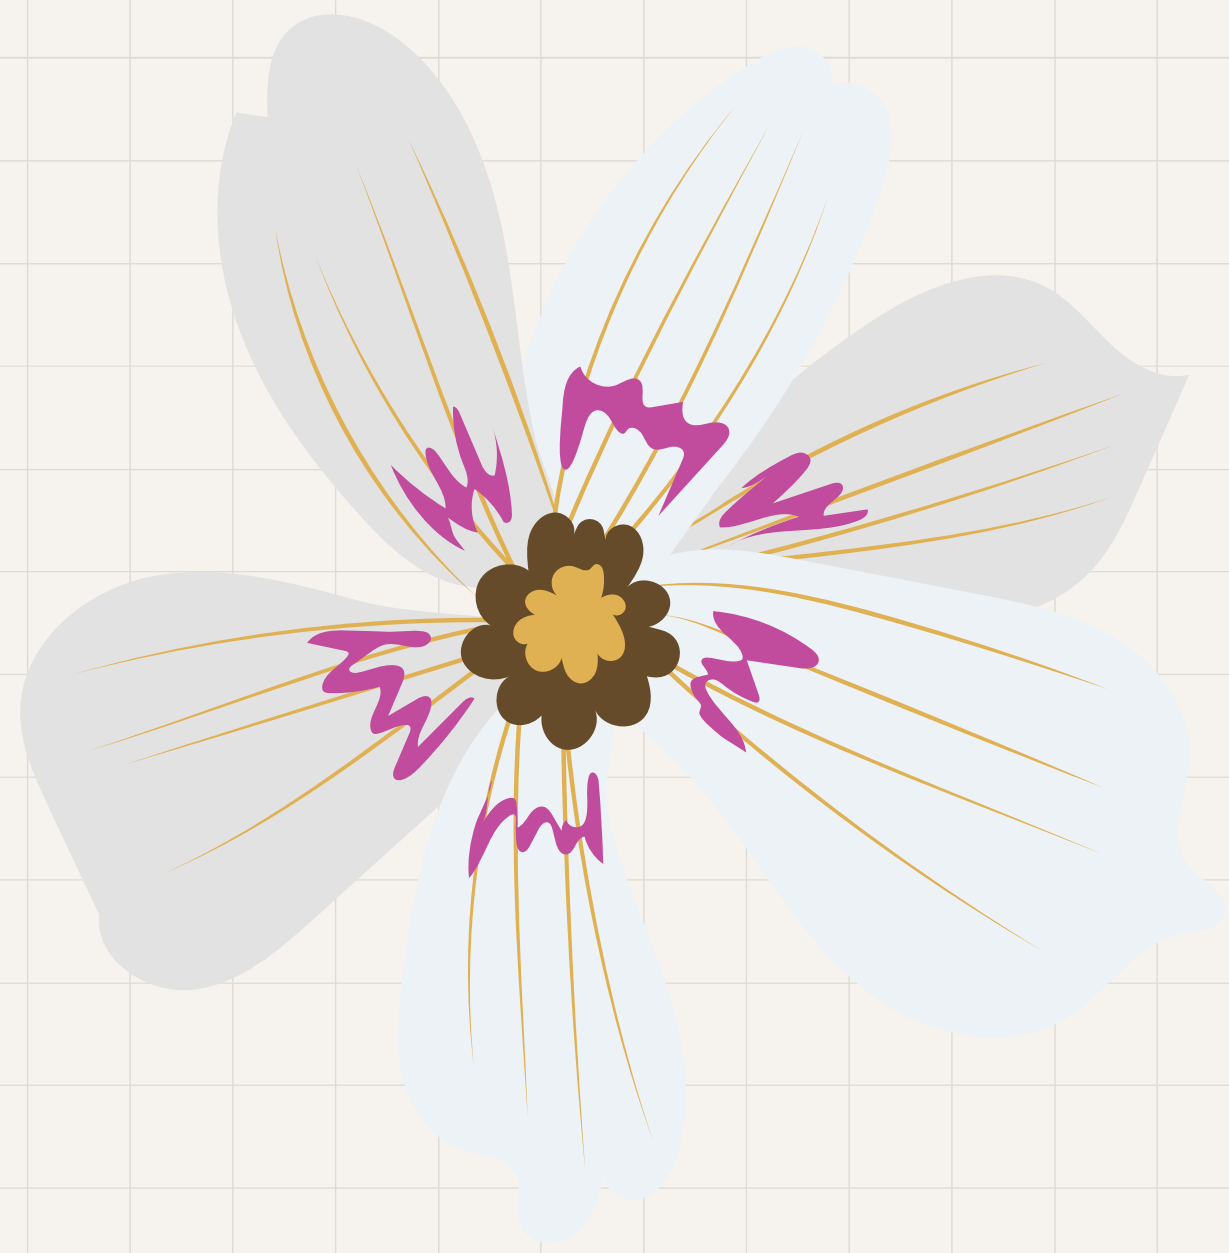

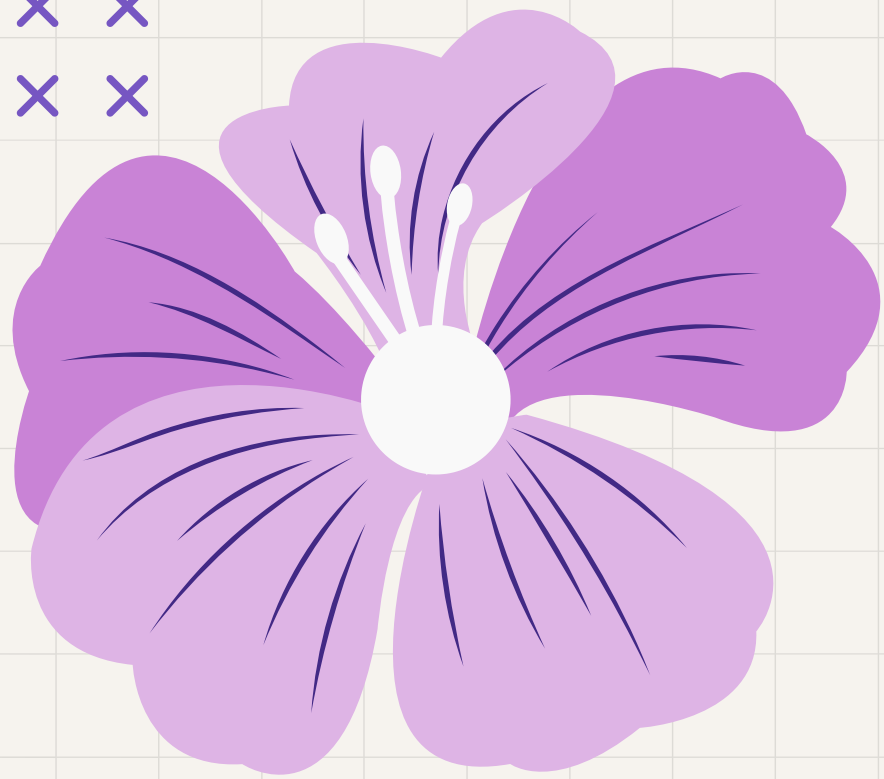

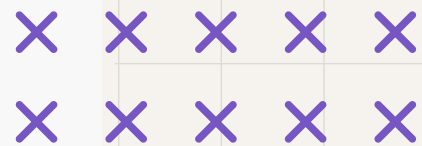

Driving smarter club management today while building a scalable platform for tomorrow

Expected Impact

Future Scope

THANK YOU!
